Quantum Vision Filmfest – Development Request Brief (Final Version)

1. Project Description

- **Project Name**: Quantum Vision Filmfest – Official Website
- **Type**: One-page scroll website (Web2-based with optional Web3 features)
- **Goal**: Official site for an international short film competition
- **Languages**: Default: English; Optional: Spanish, Chinese (static, i18n-based)

---

2. Provided by Client

Item	Description
🎨 Visual Assets	Color palette (image), logo (non-vector), background visuals, UI reference layout (not layered or vector-based)
📄 Technical Docs	Full architecture, user flows, voting system, whitelist logic, backend structure
🎬 Content	All labels, platform texts, category names and UI copy in structured format
🔍 Optional	Platform integration consideration (e.g., FilmFreeway, Festhome) – must consult client if used

---

3. Project Scope – 3 Milestones

Milestone 1 – UI/UX Structure + Static Pages

- Apply visuals (logo, color palette, background)
- Use our UI reference layout as design basis
- Build one-page layout: Hero, About, Categories, Submission, Voting, Merch, Legal
- Set up multilingual frontend (EN default + optional ES / ZH)
- Ensure full mobile & tablet responsiveness

Estimated Time & Price (to be filled by developer):

- Estimated Hours: _____
- Net Price (USD/EUR): _____

Milestone 2 – Functionality + Integrations

- Registration & Login (email/password, GDPR checkbox, double opt-in)
- Submission form: Upload .MP4 video + PDF files (storyline + script)
- Stripe Payment Links for:
  - Entry fees
  - Extra vote packages
- NOWPayments integration for USDT/USDC stablecoin (25% discount)
- Optional Wallet connection (MetaMask, WalletConnect)
- Voting system: 1 vote / category / week / user
- Extra vote purchases (via Stripe and NOWPayments)
- Printful storefront integration (embedded or linked)

Estimated Time & Price (to be filled by developer):

- Estimated Hours: _____
- Net Price (USD/EUR): _____

Milestone 3 – Admin Panel + Presale Smart Logic

- Admin Dashboard:
    - Manage content uploads
    - View payment history
    - Track votes
    - Export whitelist (JSON format)
- Presale Redirect Logic:
    - Wallet + stablecoin → auto whitelist → presale site → 10% token discount
- Ensure content is structured for future DApp migration (but DApp is not part of this build)

Estimated Time & Price (to be filled by developer):

- Estimated Hours: _____
- Net Price (USD/EUR): _____

---

4. Summary Table

Milestone	Estimated Hours	Net Price (USD/EUR)
Milestone 1		
Milestone 2		
Milestone 3		
Total

5. Optional Suggestion – Platform Integration

We encourage the developer to evaluate the integration of contest-hosting platforms (e.g., **FilmFreeway**, **Festhome**) as a secondary promotional hub, if they support linking or embedding a custom-built site. This could reduce marketing costs.
